Digital Hub: User Rules & Responsibilities

Welcome to the **TRUTH HUBS LTD** digital network. To keep our "hubs" safe, accurate, and useful for all Australians, all users must agree to the following rules:

1. Your Account, Your Responsibility

- **Keep it Private:** Do not share your password with anyone else.
- **Stay Updated:** Ensure your contact details and region are correct so we can send you relevant local information.

2. The "Truth" Standard

Because we are a "Truth Hub," we expect high standards of information:

- **Be Accurate:** If you post data or updates, ensure they are verified.
- **No "Spam":** Do not use the hub to sell unrelated products or send unsolicited messages.
- **Respect IP:** Do not copy or "scrape" the data found in this hub for use outside of authorized TRUTH HUBS projects.

3. Community Conduct

- **Be Respectful:** We have zero tolerance for bullying, harassment, or offensive language.
- **Cultural Safety:** Respect First Nations protocols. Do not share sensitive cultural information or imagery without permission.
- **Regional Connectivity:** Remember that some users are on low-bandwidth satellite or mobile connections in remote areas. Avoid uploading unnecessarily large files that might crash the system for others.

4. Privacy & Data

- We protect your data as per our **Privacy Policy**.
- Do not upload personal information about other people without their express consent.

5. Termination of Access

TRUTH HUBS LTD reserves the right to disable any account that violates these rules or engages in "anti-truth" behaviour (spreading misinformation).
