

NATIONAL CAPABILITY STATEMENT

TRUTH HUBS LTD (ABN: 88 687 699 627)

Empowering Regional, Rural, and Remote Australia through Data Transparency and Local Connection.

EXECUTIVE SUMMARY

TRUTH HUBS LTD is a 100% Australian-owned specialist service provider that bridges the critical gap between metropolitan standards and regional execution. Founded in the East Kimberley and operating with a national perspective, we deliver physical and digital "Hubs" that ensure project transparency, local workforce mobilization, and sustainable community impact. We specialize in high-stakes, logistically complex environments where "Truth" in data and "Connection" to community are the keys to success.

CORE CAPABILITIES

1. Regional Workforce & Economic Mobilization

We specialize in the "Local-First" recruitment model. We don't just find workers; we build local capacity.

- **National Reach:** Proven systems to identify, onboard, and manage regional talent across diverse jurisdictions.
- **Compliance:** Deep expertise in the **Western Australian Industry Participation Strategy (WAIPS)** and federal **Aboriginal Procurement Policies (APP)**.

2. Digital "Truth Hub" Infrastructure

Our proprietary digital ecosystem provides a "single source of truth" for complex projects.

- **Real-Time Reporting:** Cloud-based dashboards providing transparency for stakeholders, regardless of their location.

TruthHubs

2

- **Remote Connectivity Solutions:** Expert management of data integrity in low-bandwidth or "blackspot" areas.

3. First Nations Engagement & Cultural Safety

Headquartered in Kununurra, we operate at the forefront of Indigenous engagement.

- **Cultural Protocol Management:** A framework for respectful, reciprocal engagement with Traditional Owners and local Land Councils nationwide.
- **ICIP Protection:** Sophisticated handling of Indigenous Cultural and Intellectual Property within digital environments.

THE TRUTH HUBS ADVANTAGE

- **Remote-Proven:** Our methodologies were forged in the Kimberley—one of the world's most challenging environments. If we can make it work there, we can make it work anywhere in Australia.
- **Scalable Architecture:** Our "Hub" model is designed for rapid deployment to support infrastructure, disaster recovery, or community development projects across any State or Territory.
- **Integrity-Driven:** Our name is our promise. We provide the honest, unvarnished data that government and industry need to make informed decisions.

OUR NATIONAL IMPACT MODEL

Our model ensures that for every project we manage:

1. **Wealth Stays Local:** We prioritize regional subcontractors and family-owned SMEs.
2. **Skills are Retained:** We focus on training that leaves a legacy in the community long after a project concludes.
3. **Data is Transparent:** Clients receive verifiable proof of local content and social impact.
